## TOWN WARRANT

Cheshire, ss.

To the inhabitants of the Town of Walpole qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the 12th day of March next 1963 at nine o'clock in the forenoon, to act on the following subjects.

Article 1. To choose a Town Clerk, one Selectman for three years, Auditors, Town Treasurer, Road Agent, Collector of Taxes, Trustees of Public funds, Surveyors of Wood and Lumber, Fence Viewers and all other necessary officers.

Article 2. To raise money for support of the town poor, for town library, for cemeteries, to build and repair highways and bridges, and for such other current expenses as may accrue.

Article 3. To see if the town will vote to authorize its selectmen to raise money on notes of the town for current expenses in anticipation of taxes.

Article 4. To see if the town will vote to allow a discount on taxes as has been the custom in previous years.

Article 5. To see if the town will authorize its Selectmen to administer and dispose of and deed any real estate acquired by the town by tax collector's deed after being advertised.

Article 6. To see if the town will vote to raise and appropriate the sum of \$11,000 necessary to purchase two International trucks to replace a 1953 and 1954.

Article 7. To see if the town will vote to raise and appropriate the sum of five thousand dollars (\$5,000.00)

to black top the short streets of North Walpole with Dixie Mix.

Article 8. To see if the Town will vote to raise and appropriate \$8,500.00 as part of the funds needed to print and bind the HISTORY OF WALPOLE, NEW HAMPSHIRE. Proceeds from the sale of these Histories will revert to the Town after all obligations for publication are paid. It is estimated that sale of 700 copies will pay off other obligations. Sales in excess will repay this appropriation.

Article 9. To see if the Town will vote to raise and appropriate the sum of \$500.00 (\$250.00 for North Walpole and \$250.00 for Walpole) to support the recreation programs in each end of the town. By petition.

Article 10. To see if the Town will vote to raise and appropriate the sum of \$723.06 (six cents per \$1,000 of the town's equalized valuation) to The Monadnock Region Association, an agency to advertise, promote, and preserve the natural advantages and resources of the Town in cooperation with the other 37 towns of The Monadnock Region.

Article 11. To see whether the Town will raise and appropriate the sum of \$366.00 as its fair share of the operating cost of the Elliot Community Hospital.

Article 12. To transact any other business that may legally come before said meeting.

Polls to remain open until 6 p.m. or later if so voted.

Given under our hands this 18th day of February, 1963.

LOUIS S. BALLAM,  
LAWRENCE W. GRAVES,  
HAROLD T. KILLEEN,

Selectmen of Walpole

## BRIDGE MEMORIAL LIBRARY

### TRUSTEES REPORT

---

The trustees of your library have accepted the challenge of state and national library professionals as The Age of Change.

We belong to a cooperative group of libraries namely Charlestown, Alstead, Acworth, and Langdon. Bi-monthly meetings are held with a consultant from the state library. By this effort we purchase our books through the state library at a large discount.

We have sponsored an art exhibit and an exhibition of Arts and Crafts by the Home Demonstration Groups.

Two book exhibits have been displayed in local stores.

During the summer months a story hour was conducted.

Memorial books have been presented by Mr. and Mrs. Guy Bemis and Mrs. Jean Carr. Gift books have been presented by Miss Lila Pierce, Dr. Burr, Mr. Cabot and Miss C. Sparhawk.

New shelves were built at the North Walpole Library and the front walk repaired at the Bridge Memorial.

We have availed ourselves of the Bookmobile and have also borrowed from the state library extension service.

This past year we conducted a film program for both adults and children. These excellent films are furnished free to us by the state library. At the present time our object is to purchase our own film projector. By the generous contributions of Mrs. John Babbitt, Mr. Henry Cabot, Mrs. Harrison G. Bridge and Mr. Hudson Hastings we have an excellent start toward this goal. We would be most appreciative of any contributions to this fund.

Our book committee spends much time and effort on the purchase of new books. The money available is carefully allotted for children, teen age fiction, adult fiction, non-fiction, reference, and replacement material. A total of 426 new books have been purchased.

We wish to thank the community for their interest and cooperation and welcome suggestions to improve your libraries.

Respectfully submitted,

FRANCES POTTER,

Chairman

## SCHOOL WARRANT

To the inhabitants of the school district of the Town of Walpole qualified to vote in district affairs:

You are hereby notified to meet in the Walpole High School Gymnasium in said district on the 12th day of March, 1963, at 8:00 in the evening to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To choose two members of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To hear the reports of agents, auditors, committees or officers chosen, and pass any vote relating thereto.
6. To choose agents, auditors and committees in relation to any subject embraced in this warrant.
7. To see if the voters of the Walpole School District, qualified to vote in school affairs, will vote to adopt the provisions of An Act authorizing the Walpole School District to continue its contract with the Bellows Falls, Vermont High School.
8. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the salaries of school district officials, and agents, and for the

payment of statutory obligations of the district and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire.

10. To see if the district will vote to accept the services of a teacher consultant for Supervisory Union No. 60, in accordance with RSA 186:11, XXIII, as amended by Laws of 1957, 252:1, 1961, 196:2, and RSA 189:44 and 47, and to raise and appropriate the sum of \$2,074.50 to be used with similar appropriations for 1963-64 from the other districts in the Union to pay that portion of salary and travel in excess of the \$2,500 to be received from the State of New Hampshire.

11. To transact any other business that may legally come before this meeting.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

Good education is a prerequisite for individual, state and national progress. It is the means of developing our all-important resource, the human mind. Your continued support of the administration and faculty is a necessity if we are to provide the youth of Walpole with the educational opportunities that will enable them to compete on equal terms with other communities.

We are continually analyzing the curriculum, teaching methods and procedures to the end that weak areas may be strengthened and our strengths maintained. Your high school more than meets the minimum requirements of a comprehensive high school in terms of this year's requirements and except for one item, already meets the new minimum standards that become effective in September, 1963.

Last year's report noted that we were very near the limit in effective use of the building facilities now available. It was pointed out that continued improvement was dependent on building expansion and increased enrollment. We need additional building facilities now, not because we do not have pupil spaces but because we need more teaching stations to do a better job of education. There are four shifts of pupils eating in the cafeteria. The cafeteria is also used for art teaching and a study hall; vocal music classes meet in the gymnasium; the band and orchestra use the stage. Transportation takes at least twenty minutes from class time for classes that meet at the Hooper Building. The foreign languages classes meet in a converted storage room and there is just no more room for typewriters in the commercial room. We are developing an advanced placement program in Mathematics and Science that will have to stop in 1964 or 1965 for lack

of teaching stations. These are a few of the reasons why we need more building facilities and why citizens should give considerable attention to the decision of remaining a single district or joining a consolidated district.

We need more and better teaching facilities and we need additional enrollment to bring our per capita cost within reasonable limits.

Bellows Falls tuition rates continue to increase. The high school tuition rate for 1961-62 was \$401.55, 1962-63, \$440.72, and the rate set for 1963-64 is \$461.82.

The 1961-62 daily membership instruction cost for high school pupils was \$476.84 compared to the state estimated average of \$449.00. The Walpole average is computed from the combined cost of tuition and regular attendance pupils. The average cost for elementary pupils was \$320.24 compared to the state estimated average of \$295.00.

To enable a comparison, I have estimated that the cost of the needed additional building facilities would be approximately \$150,000.

Estimated Cost if all high  
school pupils attended the  
Walpole High School, 1963-64

Bond payments, 20 years	\$7,500 00
Interest, first year at 3½ %	5,250 00
Three additional teachers	15,000 00
Additional transportation	2,000 00
Additional books and supplies	2,000 00
Additional services	4,800 00
	<hr/>
Total	\$36,550 00

Estimated Cost if only the  
Walpole Village high school pupils  
attended the high school, 1963-64

Bonds payments, 20 years	\$7,500 00
Interest, first year at 3½ %	5,250 00
One added teacher	5,000 00
	none

	none
Additional services	4,800 00
Total	\$22,550 00
Plus cost of tuition to Bellows Falls High School at 1963-64 rate for 68 tuition pupils	31,403 00
	\$53,953 00

Walpole will have an estimated 223 pupils eligible to attend high school in September, 1963. The educational opportunity available is important to each and everyone of them, as well as to those who are now in elementary school and those yet to begin their formal education.

Becoming a member of a consolidated district is a way to answer the educational needs of Walpole. Last year, your School Board unanimously endorsed the recommendation made as a result of the Englehardt Study, that Walpole become a member of a consolidated school district. The preliminary report of the State Interim Commission on Education also recommends a similar pattern for this area. However, on March 1, 1962, the district voted not to join the consolidated district.

It is generally recognized that larger administrative units need to be formed to implement economical, adequate and long-range educational plans. This is the recommendation of leading educators and forward thinking lay-people. An example of the latter is the previously mentioned Interim Commission which was composed largely of lay-people.

At the present time your School Board is joining with the School Boards of Acworth, Alstead, Charlestown, Langdon, Marlow and Westmoreland to study the possibilities of forming a consolidated school district. In addition, your School Board is in the process of discussing the same idea with the Rockingham School Board. Progress reports will undoubtedly be made at the annual School District Meeting.

I would like to suggest that the educational problems of Walpole be approached with an open mind as to the best solution. Let us keep in mind that the best solution will benefit all children. The best interests of your children, grandchildren and their children are your best interests now. Study after study has shown that where the best educational program is, there also is the highest standard of living. A divided educational effort has little chance of successfully meeting the needs of all.

The United States Office of Education published, in 1957, a handbook of school financial accounting. The State Board of Education issued a School Financial Accounting Handbook that incorporated, wherever possible, the practices recommended in the national handbook. The change in accounting for school district monies, the preparation of budgets and reports became effective July 1, 1962. The purpose of the change is directed toward the achievement of standardization that will give better accounting and reporting practices plus the ability to make more accurate comparisons.

The actual expenditures report for the school year 1961-62 is given according to the previous method of accounting as is the current budget for 1962-63. In addition, the current budget is also printed as converted to the new method. The proposed budget is in accordance with the changes that became effective July 1, 1962.

The activities in their respective schools are covered in more detail in the principals' reports.

Walpole teachers participated in a successful Social Studies three-day workshop with the teachers of Supervisory Union No. 60, on August 30th and 31st, and a follow-up day October 25th. The workshop study was directed toward determining strengths, weaknesses and trends of our social studies curriculum, teaching techniques and methods. Professor Emeritus Dr. Linwood Chase from Boston University was our consultant.

Plans are now in the process of development for next year's workshop that will consider how we can keep par-

ents and citizens better informed in regard to what is being done in your schools.

Since the opening of school in September, we have had three elementary teachers resign for health reasons and one high school teacher. In addition, our principal was released from his contract to assume the duties of Assistant Superintendent of the Mascoma Cooperative District.

I would like to take this opportunity to thank the school board, teachers, parents, pupils and citizens for their cooperation.

ELLIOTT W. KEACH,  
Superintendent of Schools

## STATE DEPARTMENT OF EDUCATION

---

January 23, 1963

Mr. Elliott W. Keach  
Superintendent of Schools  
Walpole, New Hampshire

Dear Mr. Keach:

On January 21, 1963, I visited Walpole High School. The purpose was to apprise the administration of the new minimum standards which will go into effect in September, 1963, and to develop in a subsequent report any action, if necessary, that would qualify the school as an approved comprehensive high school for next year.

It was a pleasure to find that in every respect the school is now meeting the minimum standards as they relate to program of studies, facilities and equipment, and administrative and supervisory provisions. In addition, the guidance service is now adequate.

There is only a very slight change that will have to be planned for, and that concerns the provision for having a qualified teacher-librarian available in the school library at least two periods each day; it is expected that the library would be open the remaining periods but serviced by the teacher-librarian for at least two periods. Current certification regulations require that such a person have at least six semester hours of library science or the equivalent of two courses.

This letter will constitute the only report on the minimum standards which we will make to the school. We hope you will share copies of it with members of your board and with the principal.

Very truly yours,

C. PAUL QUIMBY, Director  
Secondary School Services

## REPORT OF THE SCHOOL NURSE FOR WALPOLE AND NORTH WALPOLE

---

The following is my report for the year ending June 30, 1962:

336 pupils were examined by Dr. Tatem.

The following defects were found and reported:

- 5 pupils had wax plugs in both ears
- 2 pupils had reportable heart conditions
- 153 pupils were under dental care
- 183 pupils were in need of dental care

Work of the school nurse:

- 667 pupils had vision screening tests
- 39 pupils received vision notices
- 440 pupils had hearing screening tests
- 1 pupils had a reportable hearing loss
- 669 pupils were weighed and measured
- 50 pupils attended pre-registration clinics
- 62 pupils were checked for smallpox vaccination and necessary follow-up done
- 92 pupils participated in the Urine Testing Program
- 426 pupils were given direct classroom teaching in Dental Health

It is interesting to note that in the early 20th century, mass immunization, improved sanitation, and innumerable other advances in medicine and public health had brought communicable disease under control.

When school medical services were started in this country the principal objective was to control contagious and nuisance disease through frequent medical inspections of the school and pupils. As communicable disease have been controlled, emphasis has shifted to examinations for hearing and vision defects, and school physicals looking for physical defects.

School health services must be family-centered and family-oriented. The ultimate objective of the school health services is to maintain, protect, and promote the optimal health—physical, mental, emotional and social—of the school-age child.

The following is a list of functions included in the school health program:

1. To appraise the health status of pupils and school personnel.
2. To counsel pupils, parents, and others concerning findings.
3. To encourage the correction of remediable defects.
4. To assist in the identification and education of handicapped children.
5. To help prevent and control disease.
6. To provide emergency service for injury or sudden sickness.

Respectfully submitted,

MRS. ELLEN PEARCE, R.N.,

School Nurse

## **PRINCIPAL'S REPORT WALPOLE VILLAGE SCHOOLS**

---

Mr. Elliott W. Keach  
Superintendent of Schools  
Walpole, New Hampshire

Dear Mr. Keach:

I herewith submit my first annual report:

### **Organization**

Basic organizational changes this year were as follows:

1. A part time art teacher was added to the staff.
2. Both sections of grade two were combined.
3. Grade three has returned to two sections.

### **Curriculum**

The annual workshop, held this past year in late August, concerned itself with the introduction of new ideas and procedures in the field of Social Studies. A follow-up day in October enabled teachers to discuss the outcome of the workshop and to watch demonstration teaching. Reports indicate that much benefit was derived from the workshop that covered an area too often neglected in this world of scientific and technological advancement.

The ungraded reading and arithmetic programs continue to show increasing success. The reading program consists of six groups, the upper level groups reading more advanced material than ever previously offered. Our resources in basic texts and literature books are most adequate at the present time.

The arithmetic program consists of ten groups in grades four through eight. The upper levels of this program are working most successfully in the areas of modern mathematics. Group 10 has, since September of 1961, been an Algebra group offering Algebra I to those who are ready for it. As ninth graders, members of this group follow up with Algebra IA which, in effect, is an Algebra II content course. Walpole High School placed first among the small schools in New Hampshire in the 13th Annual Mathematics Contest for 1962. This is sponsored by the Mathematical Association of America and the Society of Actuaries, and is nation-wide.

It should be stressed that while we are pleased that provisions can be made for students who can move ahead rapidly, we are equally pleased that provisions can be made for those who proceed at a slower pace. Ability grouping is oftentimes controversial. However, experience has shown that failures are reduced, frustrations are curbed and acceleration is possible in a homogeneous atmosphere. Those who inaugurated the plan in Walpole should be commended.

Continuing, but moved to grade 8 from the senior high school, is Developmental Reading meeting four times a week each semester. The desirability of the course is unquestioned; remaining, however, is the problem of making the course available for more students. This is under study.

Creative Writing and Public Speaking, made a part of the regular academic program a year ago, continues. Original short stories, written by juniors in Creative Writing, are in the process of being submitted to selected publishers.

The desire to stimulate an interest in reading has prompted the English Department to inaugurate a paper bound book store. Early reports indicate that the project is meeting with better than average success.

Space does not permit extensive reporting for a given

department; however, it should be of interest to the public to know that the English department is currently making plans for its trip to Stratford, Connecticut to attend the Shakesperian Festival. The trip is planned for May. Interest should be high.

A new science series has been introduced in the intermediate grade area. Although science has been treated as a major subject area in our school for years, increased emphasis on the experimental approach and more diversified content are being stressed.

Biology continues to be offered in grade nine. Due to the accelerated status of this course, as is the case with Algebra 1A previously mentioned, it is imperative that consideration be given to advanced courses beyond the normal sequence for those students involved. Provisions should be made by the fall of 1964-1965.

Once again, due to the wisdom and generosity of Walpole citizens, Walpole High School has met the state minimum requirements as an accredited comprehensive high school, and has been designated as such by the State Board of Education.

### **School Lunch Program**

The following summary figures are offered to show the comparison between the years 1959-1962, as of June, 1962:

	Total Receipts	Total Expenditures	Total Reimbs.
1959-1960	\$22,097 50	\$24,969 52	\$4,047 53
1960-1961	25,513 28	26,528 94	4,094 93
1961-1962	24,166 39	24,024 63	3,829 03

There were 64,941 student and 5,140 adult meals served in 1961-1962. Figures for the previous year were 68,507 and 4,890.

This year the school lunch department was able to purchase a deep freeze unit at no cost to the district.

### **Title III and Title V Funds**

Once again the extension of the National Defense Education Act has made it possible to add equipment and teaching materials to our science, math and foreign language departments.

Plans formulated last year to relocate the foreign language classroom have been realized; however facilities and space are still inadequate. A larger, less confining area is needed.

Fifteen science tables have been purchased for the junior science laboratory and while these have aided the program considerably, larger quarters are needed. Provisions for water taps, electrical outlets and storage space should be made to carry on an adequate program.

Due to the shortage of Title V funds, with top priority given to the establishment of guidance programs, we were once again limited in our attempt to add to existing guidance facilities.

### **Guidance**

The primary purpose of the Guidance Service is to contribute to the individual growth of students, educationally, socially, vocationally and personally.

The four most important phases of Guidance are: individual counseling, psychometric testing, educational and occupational information and evaluation research.

Individual counseling provides the medium by which students are able to discuss and express their problems freely with the support, clarification, help and advice of the Counselor.

### **Psychometric Testing**

The objective of psychometric testing is to identify the academically talented and to help in the evaluation of students by defining their strengths and weaknesses so that remedial measures can be taken. The results of

objective tests are important in planning the curriculum and in comparing the performance of Walpole students with other students on a National basis. The various types of measurement instruments are intelligence tests, aptitude tests which measure one's potential ability for doing a certain kind of work, and achievement tests which measure a person's rate of performance based upon knowledge of what has been learned.

### List of Tests

Mental Ability		Name of Test
Grade		
1		Otis Alpha
3		Otis Beta
5		Otis Beta
7		Otis Beta
8		PGAT
9		SRA, PMA
10		SCAT
11		SRA, PMA
K-12	Individual Binet & Wechsler	
K	Reading Readiness	
1	Reading Readiness	
1-8	California Battery	
4-6	American Arithmetic and	
	Iowa Reading	
8	Metropolitan Achievement	
9-12	Cooperative Standardized	
9		UNH
10		UNH
11		UNH
11-12	College Boards & ACT	
12	Employment Aptitude Tests	

The mental ability or intelligence tests are usually administered in November with the individual Wechsler given when confirmation of a score is desired.

The reading readiness tests are given either in May

for the Kindergarten or September for Grade 1. The California Battery is usually given in April with the American Arithmetic and Iowa Reading given to students in the Walpole-Joplin Reading and Arithmetic Program in January.

### **The Grade Eight Testing Program**

The Pintner General Ability Test is given in November with the Metropolitan Achievement Battery. This program is in cooperation with various other schools in New Hampshire and allows us to compare our students with students from other New Hampshire schools on such factors as Reading, spelling, language, language study skills, arithmetic computation, arithmetic problem solving and concepts, social studies information, social study skills, and science.

The Cooperative Standardized Tests for grades nine through twelve are given the last few weeks of the school year. The University of New Hampshire Testing Battery for grades nine and eleven are given in January and measure interests aptitudes and scholastic ability.

The College Board Entrance Examinations are given at various times throughout the year. A schedule of the dates, places of administration and application forms is available in the Guidance Office. The tests are intended for students in grades eleven and twelve seeking admission to institutions of higher learning.

The employment tests are given by a representative of the employment division for the purpose of determining a pupil's aptitude for employment as an aid in the selection of vocations.

### **Educational and Occupational Information**

Over 400 catalogues from various universities, colleges, business schools, technical schools and nursing schools are actively kept on file in the Guidance Office. A complete file on occupations classified according to the

Dictionary of Occupational Titles are actively kept on file and supplemented by issues from the Monthly Guidance Chronicles, in order that students may obtain unbiased information concerning the requirements, working conditions, advantages, and disadvantages, of various semi-skilled, skilled and professional occupations.

### **Evaluation Research**

Research projects are continuously being carried on by the Guidance Office in an attempt to analyze the existing conditions which affect the learning of students in the school, through counseling sessions with students, parents and follow-up evaluations of graduating classes.

### **Parent Conferences**

This year, the Guidance Office has been open from 7:00 to 9:00 P.M. on Thursday evenings to develop a program of parent conferences. This program was initiated to enable parents to meet with the Guidance Counselor to discuss the performance of their children at school and to bring the home and the school closer together in the ultimate objective of developing healthy, happy, and educated students.

### **Adult Education**

The following adult education courses were offered in the fall of 1962:

Foods and Nutrition	Miss Maria Marges
Current Events	Mr. James A. Dixon
Shakespeare	Mr. Vincent E. Riel
Chair Seating	Mrs. Mary Fredette
Welding	Mr. Thomas W. Watts

No course was given due to lack of interest. It is felt that an adult education program can offer much to the community. It is our sincere hope that interest in such a program will be stimulated next year.

### **Pupil Activity Program**

Following the adage, "all work and no play . . ." Walpole High School offers a varied activity program to meet the needs of its students. Based upon student demand and correlation with curriculum, the following activities are offered:

Junior and Senior Personal Typing, Athletic Association, Junior Student Council, Senior Student Council, Junior Library, Class Meetings, Yearbook, Future Homemakers of America, Safety Patrol, Camera Club, Future Farmers of America, Science Club, Future Business Leaders of America, Thespian Club, Band, Chorus, and Cheerleading.

Each pupil participates in at least one activity per week.

### **Parent-Teachers Association**

We wish to express our deep gratitude to the Walpole P.T.A. for its generous donation this year of nearly \$350 to be used for library purposes, bringing to more than \$2,000 the amount donated by the P.T.A. thus far. Certainly our students are benefitting because of the P.T.A. effort.

Under the able direction of Mrs. Howard Andros, many fine programs have been sponsored. Proposed projects for future consideration include a resource file and a study group on physical fitness.

### **Special Education**

This is the second year that special educational opportunity is being offered to students with exceptional difficulties, particularly in the areas of reading, arithmetic and writing. Student participants, excused from regular school attendance, meet twice a week for two hours. At present, two students are in attendance, a third having returned to regular classes.

Primary emphasis is placed on reading with secondary emphasis on arithmetic and spelling.

Two very important teaching aids have been used for reading: (1) Tachistoscope—designed to increase reading rate, and (2) SRA Reading Laboratory - designed to increase both reading rate and comprehension.

It is recommended that the program be continued and consideration be given to the possibility of including three or four students, now attending regular classes, who have very serious reading difficulties.

### **Physical Education**

Our students show tremendous enthusiasm for physical education, not only those students in grades seven through ten where physical education is mandatory twice a week, but students in all other grades as well. Credit for such enthusiasm is partly due to the steady acquisition of new equipment. However, much credit should also go to the physical education instructor for an interesting and varied presentation of the program.

Our intramural program was highly successful considering the number of students we have.

For the first time we were able to compare results of the American Association of Health, Physical Education and Recreation (AAHPER) tests. The total physical fitness of all grades involved has risen 17 per cent over last year, a commendable gain.

Closely allied to the physical education program is our program of interscholastic athletics, comprehensive enough to provide healthy competition for many of our students. Boys may compete in varsity soccer, basketball and baseball, junior varsity basketball and junior high basketball and baseball. Girls enjoy interscholastic basketball and softball. Boys of intermediate age have the opportunity to participate in so-called Biddy Basketball on Saturday afternoons.

### Art Education

We are pleased to report the formal introduction of art education in kindergarten through grade twelve. Mrs. Greer, our circuit art teacher, advises that the students are eager for art instruction and progressing most satisfactorily. Aside from providing students with the opportunity to express themselves through art, the introduction of the course into the curriculum has enabled Walpole High School to retain its certification as a Comprehensive High School. Without art, certification was in jeopardy.

The public should also be pleased to learn that because of the inclusion of art at the secondary level, we are now eligible to send two students of art to Boston on scholarship each Saturday for a seven week period. The scholarships are granted by the Boston Museum of Fine Arts and are granted to the two students who, in the opinion of the art teacher, show the most promise and can benefit most by the additional instruction.

### Music

Excellent progress has been made during the past year by members of the band and choruses considering the limited time available for these activities.

Walpole Village Schools can boast of three choruses at the elementary, junior and senior high levels providing opportunity for one hundred and fifty students. Nearly fifty more comprise the band.

More than two hundred parents and guests attended our Christmas Concert and had the opportunity to witness the progress of these musical groups. It is hoped that a similar or larger audience will be on hand for our Spring Concert.

With an eye toward continual improvement in the area of music, it should be stressed that separate quarters, large enough to house all music groups, should be provided which would have the effect of freeing the gym for ad-

ditional physical education activities and equally important, provide an atmosphere more conducive to the advancement of musical activities.

### **Library**

We wish to express our thanks to Mr. & Mrs. Charles A. Blackwell and Mr. & Mrs. G. Leighton Bridge for their generous donation of books and periodicals.

Considering our enrollment, our library is amply stocked. In fact space does not permit us to keep all books in the library; many reference books must be stored throughout the school. Additional space for storage as well as pupil stations are necessary if we are to make full use of the available materials.

### **Recommendations**

It is evident, as we look into the educational future of the Walpole Village Schools, that several needs must be met to maintain quality education:

1. Classroom utilization is already one hundred percent. A possible increase in enrollment would dictate the need for additional classrooms.
2. Shortcomings in physical education and music facilities have been mentioned.
3. An art room is needed.
4. Library space is inadequate as is the case with the foreign language room.
5. An additional primary grade classroom is needed.
6. The junior high school science laboratory needs to be more adequately equipped.

### **Summary**

Despite the numerous recommendations above, the educational picture of the Walpole Village Schools is a healthy one. Townspeople, parents, members of the school

board, staff and administration are to be commended for their efforts in providing excellent educational opportunities for the youth of Walpole.

Many thanks to the superintendent, school board, staff, pupils and parents for their loyal cooperation.

Respectfully submitted,

EDWARD C. WILLIS,

Principal

## REPORT OF PRINCIPAL NORTH WALPOLE SCHOOL

---

Mr. Elliott W. Keach  
Superintendent of Schools  
Walpole, New Hampshire

Dear Sir:

I herewith submit my annual report as principal of the North Walpole School.

### Curriculum

The Modern Mathematics textbook was introduced in grades seven and eight this year. With the introduction of this text, it is believed that the pupils will receive a better understanding of the mathematical concepts and meanings, and thus become able to make and apply the generalizations of arithmetic. I hope to have this text placed in all the grades in another year.

Our Reading Program is being carried on as in other years and continues to show improvement. The pupils are reading, according to the last Reading Report handed in by the teachers, on the average of five library books per marking period. This represents an increase in reading over the previous years.

The S. R. A. Reading Laboratory is being used in Grade Six, and Mr. Werden, the teacher, reports that definite progress in reading is being made by each pupil in the grade. This Reading Laboratory provides opportunities for the individual to proceed at his own level and rate, so that each student realizes some degree of success as he proceeds in his reading.

The workshop held last year in Social Studies was of

great help to the teachers, as it gave them new ideas and a better understanding of the program through the grades. It was brought out that a logical and systematic training in the use of maps and globes was needed, and that social studies can be related to Science, Mathematics, and other subject areas. The aim of our Social Studies Program this year is to see that the social studies courses carry their rightful share of responsibility for developing the understandings, attitudes, behavior, and skills that will enable the individual to participate effectively in the life of his time.

The National Defense Education Act has made it possible for us to add various types of equipment to our Science Department. If our Science Program is to continue to grow, there is a definite need of a Science Laboratory and of storage space for the science apparatus. The science report at the end of the first marking period showed an appreciable gain in the number of experiences being presented the pupils and in the number of experiments being done by the students.

Conversational French is being offered in grades seven and eight. Latin and Algebra will be presented the second semester to those in grade eight who express their desire to take the College Course in High School.

### **Physical Education**

In keeping with the Physical Fitness Youth Program of the government, more time has been allotted to calisthenics this year. A third of the time given to the Physical Education Program is being devoted to this feature of the program.

In Athletics, baseball and basketball continue to be the main sports in the upper grades, with an active program in both. The boys, not making the squad in these sports, are given an opportunity to participate by reporting Saturday mornings for instruction with Mr. Werden acting as supervisor. The girls compete in an intramural program in softball and basketball.

A new giant slide has been added to our playground equipment, and volley ball standards and net to our indoor facilities. A Vaulting Box for the gymnasium has been made available through the kindness of Mr. Paul Aumand and the school wishes to thank him for his generosity. More new equipment is needed, if the school is to continue to improve the program.

### **Testing Program**

Ability Tests were administered in grades one, three, five, and seven. The California Achievement Tests were given in all the grades, and a Reading Readiness Test in grade one.

The Pintner General Ability Test and the Metropolitan Achievement Battery were given in grade eight in October. The Test Service and Advisement Center at Dunbarton, N.H. did the correcting and scoring. The results are being used both by the Guidance Counselor and the teachers.

### **Exhibits**

The Hobby and Science Exhibits held in May of last year were well attended and many favorable comments from the people who visited and from teachers outside the school were received. Plans are being made at the present time for an Art Exhibit which will be held at the same time as the others.

It is expected that next year's Science Exhibit will be viewed by Mr. Robert Wagner, Science Director for the State Department of Education.

### **Public Relations**

The Public Relations Program consists of General Assemblies held once a month, and to which the public is invited, Weekly Reports by the Grades to the Bellows Falls Times, One-Act Plays, Musicals, and the Yearbook.

For the most part, the people have responded very well to our programs.

### **Student Activities**

The Glee Club, Class Meetings, Safety Patrol, and parties and dances under the direction of the Student Council form an integral part in the education of the students. All of the pupils participate in one or more of the activities listed.

### **Gift**

The school wishes to express its thanks to the Class of 1962 for its gift of a new flag for the stage.

I wish to thank the Superintendent, School Board, Teachers, Pupils, and Parents for their cooperation during the past year.

Respectfully submitted,

JOSEPH Z. DUBE,  
Principal, North Walpole School

## Preventing Forest Fires Is Our Responsibility

Cost of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be placed cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control — pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to install in the child's mind a respect for fire.

### ***Keep Our Town Safe From Fire.***

In 1962 we had 2 fires.

We burned 0 acres.

Permits issued 250.

CORNELIUS WOOD, District Fire Chief.

WALTER KILBURN, SR., Forest Fire Warden.
